

# BOHDAN VORONA

Enthusiastic Web Developer

## HELLO

Enthusiastic and product-oriented web developer with **over 10 years** of experience in the IT field.

Passionate about creating efficient, user-friendly solutions by understanding both **business and client needs**. Background in developing and managing personal projects as well as management and team leading.

Committed to delivering high-quality work, responding promptly, and valuing clients' time.

Dedicated, responsible, and always striving for growth. Believe in simplicity over complexity, ensuring clean, maintainable code and intuitive design.

## ADVANTAGES

- 53 total jobs, 100% job success, 5.0 average rating.
- 100% positive feedback, top rated.
- About 80% of the projects were planned, discussed, and developed from scratch.
- Experience working with Upwork enterprise clients.
- Verified English fluent level.

## AREA OF EXPERTISE

**Back-end development:** PHP, Node.js, Symfony, Yii, Slim, MySQL, PostgreSQL, Redis, third-party services integration, API development.

**Front-end development:** JavaScript, Bootstrap, Vue.js, Nuxt, jQuery.

**Server-side:** AWS, Digital Ocean services, LAMP/LEMP stack.

**Tools:** Figma, Retool, Make, Canva, WordPress, Webflow.

**Other:** Sockets, Git, PWA, SPA, Basic SEO knowledge, generative AI.

## EDUCATION

Master's Degree in **Computer Science**.

# HOW CAN HELP

- » Creating **websites and web apps** of any complexity.
- » Creating custom **CRM and ERP** systems.
- » Creating appealing **HTML templates** and layouts.
- » Creating and documenting **APIs** of any complexity.
- » Creating **browser extensions**.
- » Creating **PWAs** (Progressive Web Apps) and **SPAs** (Single-page Apps).
- » **Server-side** management.
- » **Project management**.
- » Providing lots of valuable **propositions and recommendations** (the most important thing!).

Bohdan is excellent in communication and solving problems. Will highly recommend him to solve a complex task and best support!

A client from Iceland. I helped Dimitry with his project *bilaskra.is*, mostly at the server-side part.

Bohdan is a senior software engineer that is capable of taking complicated tasks and making them simple. I will be using Bohdan again once I am ready to ramp up tasks...

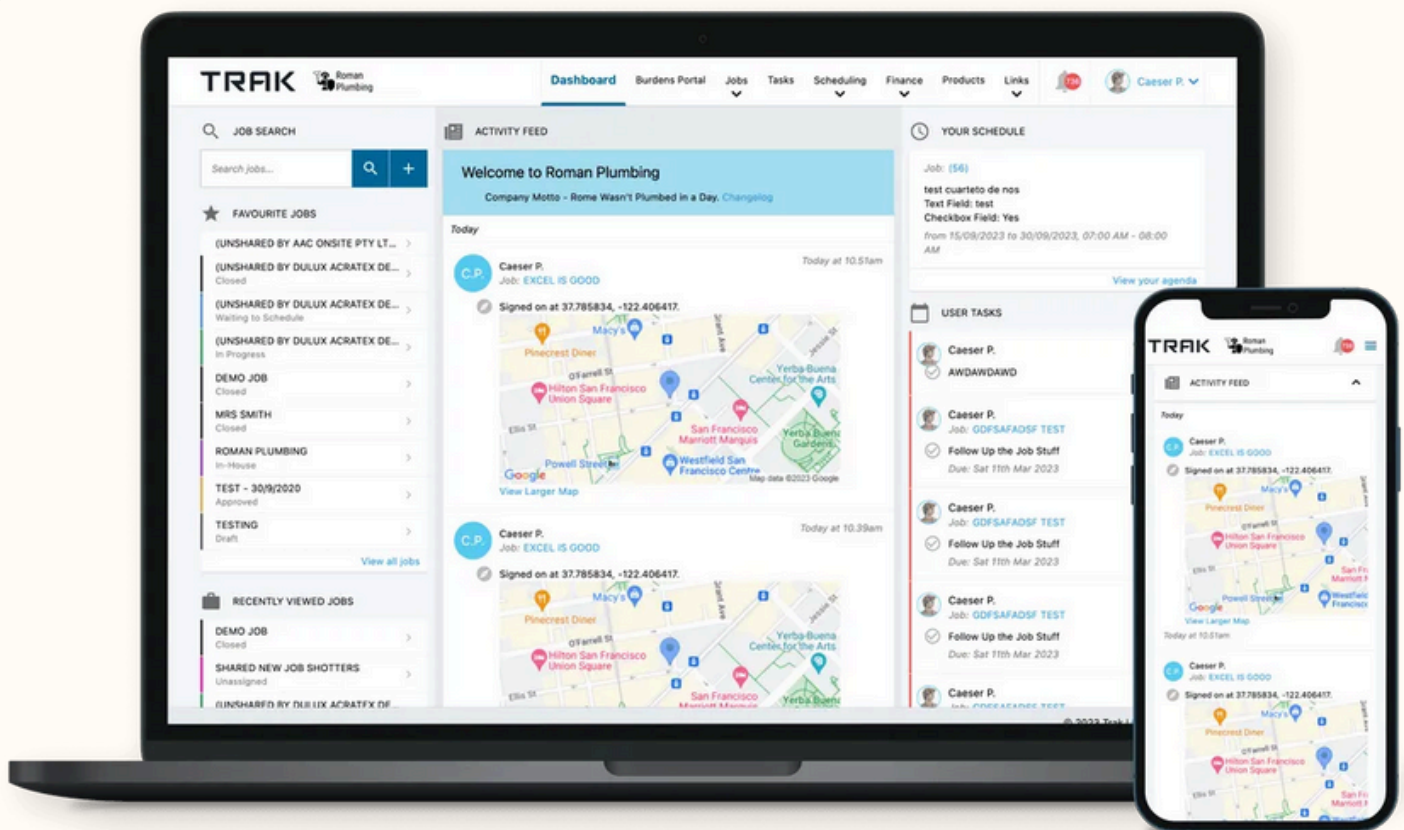

A client from the U.S. I helped Chris with his project *getshipwise.com*, working together with Alexander - the founder of the Yii framework. My work was mostly around new modules implementation and third-party APIs integration.

# SOME KEY PROJECTS: TRAK

Bohdan is an amazing freelancer who has been an asset for our business throughout his time working for us. His communication, quality of work, thoughtfulness and...

Owen, Australia. Developed from scratch, a comprehensive complete **job management** software web solution - Trak ([trak.co](http://trak.co)). Used and trusted by trade and service businesses across Australia and New Zealand.

Some functionality:

- job and team management;
- activity feed;
- tasks;
- contractors and sub-contractors;
- emails;
- scheduling;
- Safe Work Method Statements;
- files;
- quoting, invoices, and payments.

## Activity Feed

See the latest updates for all of your jobs as they happen on your homepage.

## Booking Form

Have clients schedule jobs directly into your Trak account.

## Tasks

Create and allocate tasks to any team or user to help break up the workload.

## Notifications

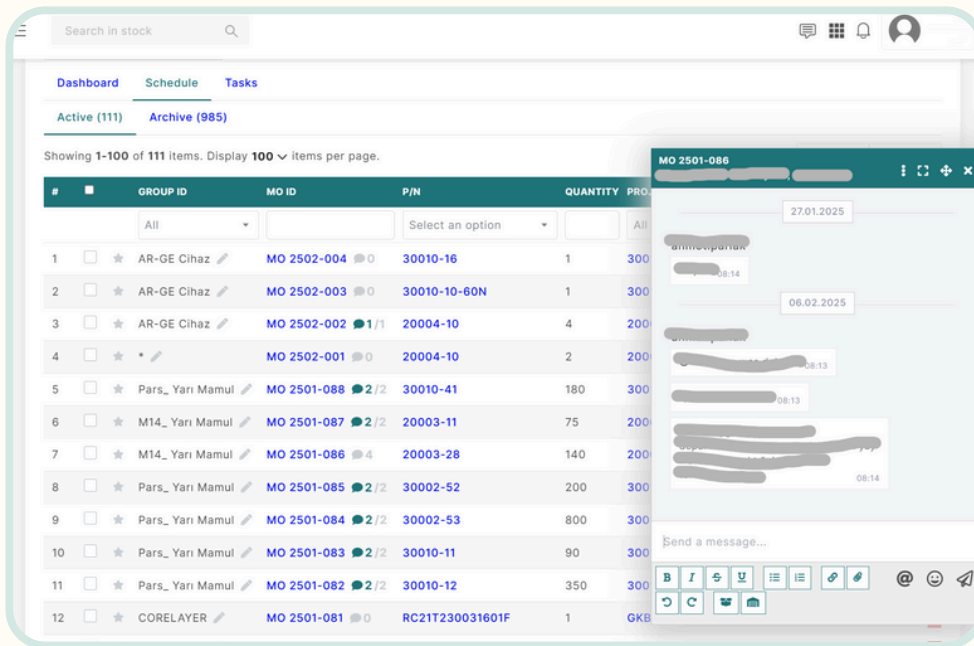

Receive notifications straight to your phone or computer so you never miss a job or update again.

# SOME KEY PROJECTS: COBY ERP

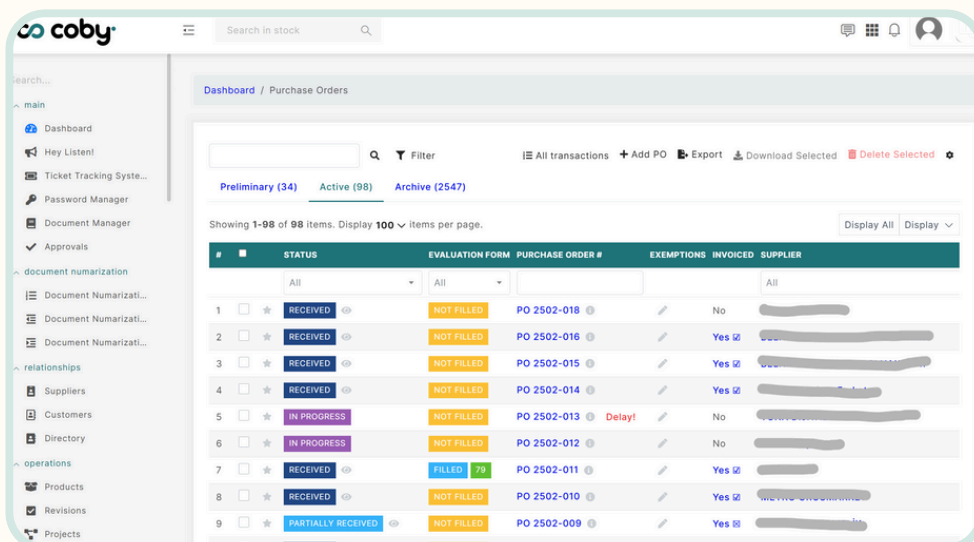

Great freelanceler. He is very professional and knowledgeable. I totally recommend him to everyone.  
10/10

Engin, Turkey. Developed from scratch, a comprehensive **custom ERP** solution for a big-size business - Coby ERP ([cobyerp.com](http://cobyerp.com)). I worked on both the back-end and front-end sides and configured the server-side infrastructure using Digital Ocean services. I implemented a lot of functionality and added the ability to communicate in real time via a custom chat.

Some functionality:

- tracking system;
- documents;
- employees;
- suppliers and customers;
- products, revisions, stock;
- projects;
- quality control;
- manufacturing orders;
- sales orders and invoices;
- customer support;
- HR management;
- emails;
- triggers and actions;
- purchase orders;
- advance payments;
- quotation;
- chat.

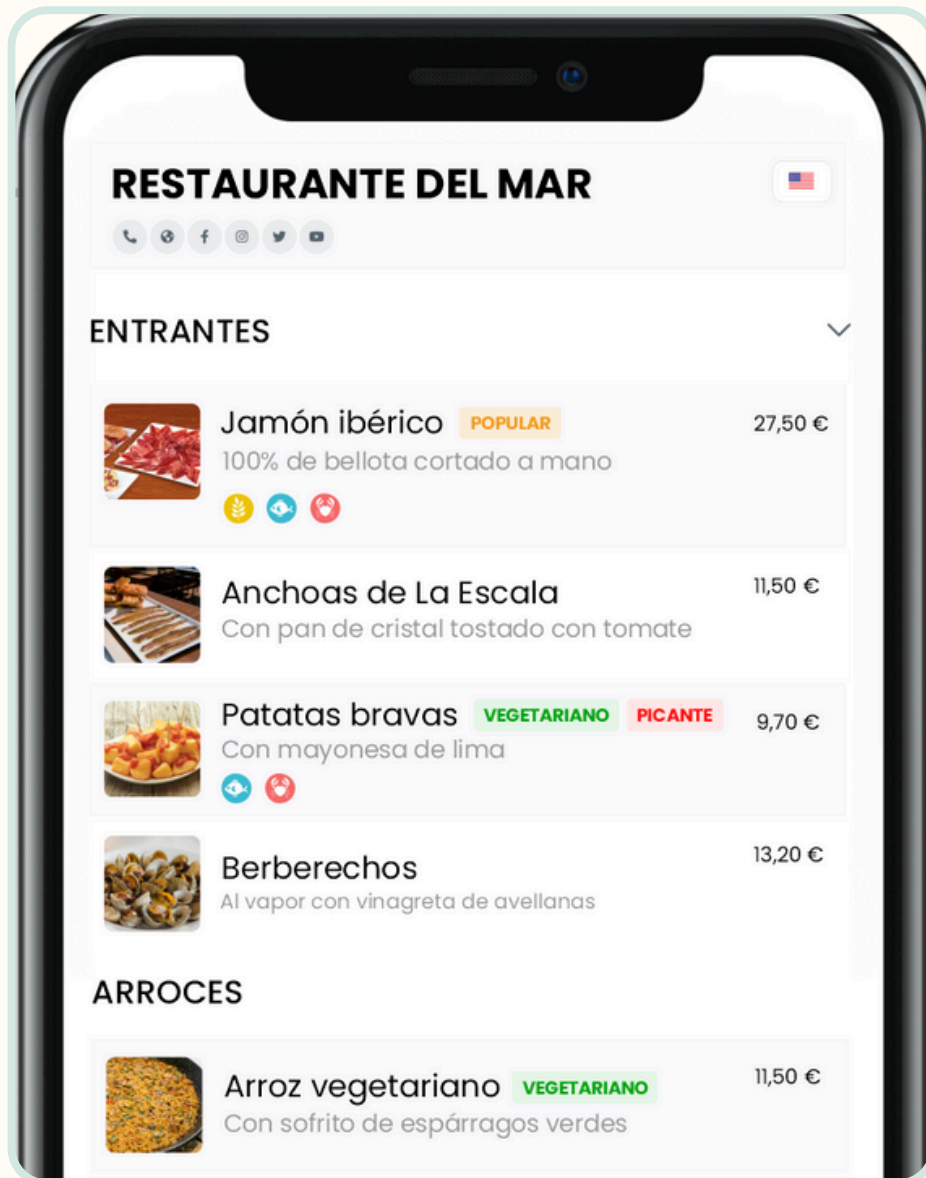

# SOME KEY PROJECTS: TU MENU

Developer

Excellent professional

Dani, Spain. Developed from scratch, a multi-lingual web management online tool to **manage restaurant menus** - Tu Menu (*tumenu.pro*). I worked on both the back-end and front-end sides and configured the server-side infrastructure using Digital Ocean services.

Some functionality:

- QR codes;
- multi-lingual;
- allergens;
- photos;
- food type warnings;
- real-time statistics;
- widgets for websites;
- dishes and categories;
- special menus;
- subscription model.

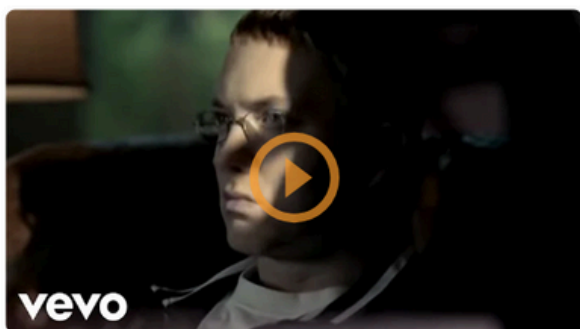

# SOME KEY PROJECTS: ONTIVA

Tony, Singapore. Ontiva ([ontiva.com](http://ontiva.com)) is a **YouTube** Converter and downloader. The project was divided into two separate parts: the front-end and the back-end (API). I had to work with a large amount of media files and FFmpeg.

# OWN PROJECTS

## POMOTASTIC

ACTIVE

**Pomotastic** (*pomotastic.com*) is an online Pomodoro timer that works right on a desktop or mobile browser. The aim of this web app is to help people to focus on their work or study in a more productive way. The Pomodoro Technique is used for that.

I created the project because of my personal needs. You can read the story [here](#). Started in 2023.

**Tech stack:** Vue.js, Bootstrap, JavaScript, PHP, Slim; On-Page SEO. Also, I made it PWA (Progressive Web App).

## FANATOS

INACTIVE

**Fanatos** was created with the aim of fully diversifying fantasy football. It combined elements of online football management and fantasy football. More than 1k registered users throughout the whole lifetime.

Started in 2019 in cooperation with two teammates.

**Tech stack:** PHP, Laravel, Yii, JavaScript, jQuery, MySQL, Bootstrap, and third-party APIs. Also, I had to be involved in management, marketing, and SEO.

# OWN PROJECTS

## CATENACCIO

INACTIVE

A free online browser game in the football style mainly focused on mobile devices.

Started with one teammate in 2022 and closed in 2023.

**Tech stack:** PHP, JavaScript, Laravel, MySQL, Bootstrap, and third-party services.

Screenshots

## OSONNIA FORMS

INACTIVE

A very easy tool for functional HTML forms. No PHP, Javascript, or sign-up is required. Perfect for static websites!

Started with one teammate in 2022 and closed in 2023.

**Tech stack:** PHP, Laravel, MySQL, JavaScript, Bootstrap, and third-party services.

# MORE FEEDBACKS

Bohdan is a fantastic developer that works excellently within our team and on individual projects. No hesitation in hiring him again in the future.

News Parser Upgrade

Thanks a lot for your time. Works professionally and adheres to deadlines.

Bohdan is a very skilled and fast developer. We are very satisfied with his work and we would definitely work with him again. Great job, thank you very much!

senior PHP dev for Slim Framework needed

Bohdan did a great job helping us to refactor our Slim Backend and adding new features

Project management for long-term cooperation

Thank you for the prominent quality of the work and excellent communication!

Bohdan is excellent in communication and solving problems. Will highly recommend him to solve a complex task and best support!
